Limitless

*Nothing Can Top Your
Imagination Like Micro-Top*

With Micro-Top, concrete coloration has gone high-tech! This state-of-the-art system can cover virtually any surface with almost any kind of artwork you can imagine: custom logos, colorful graphics, creative patterns and more.

Micro-Top uses a paper-thin cementitious medium that's troweled on to create a "canvas" for unlimited artistic expression. Micro-Top is perfect both indoors or out, in private homes or high-traffic commercial sites...anyplace that could benefit from a colorful touch of imagination!

Unleash The Possibilities

Add a durable, colorfast graphic splash to any project with Micro-Top. Micro-Top can be installed as interior flooring, spotted as accent areas, continued up a wall, extended up the side of a building or applied directly to an asphalt street section. If you can imagine it, then you can create it with Micro-Top!

From small retail centers to large theme parks, intimate restaurants to busy hotels, quiet homes to bustling commercial offices... Micro-Top adds a unique statement of style and personality.

I

Efficient, Effective, Economical

With Micro-Top, you can achieve a rich, multiple-color effect without the high cost of elaborate forming and design work. That's especially important on new construction surfaces, where complex design and color selections require phase after phase of costly forming and pouring.

And not only is Micro-Top less expensive than traditional design work, it's also faster. With its time-saving application method, Micro-Top is finished in hours instead of days. With today's tight deadlines and budget constraints, you can always count on Micro-Top for superior results.

Looks Great Anywhere... And Everywhere

Transforming damaged concrete or other existing materials into a work of art is as easy as specifying Micro-Top. Micro-Top can transform an expanse of plain, gray concrete into a distinctive and dynamic area, bringing bold colors and designs where they've never been before. Micro-Top is an ideal replacement for carpeting or laminate flooring—no costly blasting is

necessary before application—resulting in significant savings of time and money. And because Micro-Top is a highly specialized process, it can be applied without affecting surrounding materials or fixtures.

Installed By The Best

When you specify Micro-Top, rest assured that the application will be handled by a highly skilled, specially trained and licensed Bomanite Franchise Partner. All Bomanite Franchise Partners receive ongoing technical and professional training to ensure that your Micro-Top project meets your budget and deadline...and exceeds your expectations. Contact your local Bomanite Toppings Franchise Partner today, and work together to create innovative solutions for your next project!
